

Md. Samrat Uz Zaman, System Engineer

+8801841221501 • zaman.iu21@gmail.com • www.linkedin.com/in/samratzaman • 470/5, Shewrapara, Dhaka

EDUCATION

MSC in CSE	2022
Royal University of Dhaka, Bangladesh	3.89/4.00
BSC in ICT	2012
Islamic University, Bangladesh	3.37/4.00
HSC in Science	2008
Jashore Education Board	4.70/5.00
SSC in Science	2006
Jashore Education Board	5.00/5.00

KEY SKILLS

- **Operating Systems & Infrastructure:** Linux • Unix • Windows • VMware • Oracle PCA • KVM • HCI • Data Center Management • High Availability • DR
- **Cloud & Virtualization:** OCI • AWS • GCP • Multi-Cloud Architecture • Migration • Security & Cost Optimization
- **DevOps:** CI/CD (GitLab, Jenkins, GitHub Actions) • Configuration Management • IaC • Monitoring & Logging
- **Containers & Orchestration:** Docker • Podman • Kubernetes • OpenShift • Helm • Microservices • Service Mesh • Container Security • Container Registry • Container Security
- **Programming & Scripting:** Python • Django • Bash • REST APIs • Version Control (Git)
- **Database & Analytics:** MySQL • Backup & Recovery • Query Optimization • Data Analytics • Visualization
- **System Operations & Maintenance:** RCA • Performance Monitoring • Troubleshooting • System Optimization • Change Management • Documentation • SOPs • 24/7 System Support • Escalation Procedures • SLA Management
- **Security & Compliance:** System Hardening • Patch Management • Vulnerability Assessment • Incident Response
- **Project & Team Management:** Agile/Scrum, Planning, Stakeholder Communication, Team Leadership & Mentoring
- **Personal Strengths:** Problem-Solving • Analytical Thinking • Risk Management • Adaptability • Continuous Learning
- Time Management • Communication

EXPERIENCE

Pubali Bank PLC	ICT Operation Div., Dhaka, Bangladesh
System Engineer (Principal Officer)	Oct'2023 – Present
System Engineer (Senior Officer)	May'2018 – Sep'2023
• Infrastructure Management: Managed 7 data centers (3 physical, 4 virtual) hosting 500+ VMs and 120+ physical servers, maintaining 99.9% uptime and 100% compliance with ISO:27001 and PCI-DSS standards and manage backup of all infrastructure ensuring the backup data ransomware free. • Virtualization & Cloud Platforms: Designed and deployed VMware, L-KVM, and Oracle PCA platforms supporting 50+ users, reducing provisioning times by 30% and enabling seamless scaling for 100+ services. Configured and managed multiple Kubernetes clusters (Vanilla, VKS, Openshift). • Systems Administration: Administered 500+ Linux/Unix servers with automated hardening, patching, and governance processes, reducing operational workload by 50-75% while maintaining 99% accuracy • Critical Application Support: Configured Oracle Fusion MW with WebLogic for Core Banking System across 3 clusters (24 nodes), achieving 99.95% availability with comprehensive DR plans (15-minute RTO) • Automation & DevOps: Developed DevOps infrastructure as well as CI/CD pipelines and automation tools using Python, Bash, and Django, increasing deployment frequency by 40%, reducing rollback incidents by 20%, and cutting manual tasks by 70% • Infrastructure Services: Maintained DNS, FTP, SMB, NTP, IDM services and Zimbra Mail Clusters for 3,000+ users, consistently achieving 99.9% availability through automated monitoring and quarterly resilience testing	

REVE Systems	Head Office, Dhaka, Bangladesh
Consultant, Software and System Services	April'2015 – May'2018
• Infrastructure Migration & Management: Planned and executed system migrations across cloud and on-premises environments, managing Linux security, OS/application upgrades, and regular patching cycles • BTCL Domain & Communication Systems: Configured .বাংলা and .bd ccTLD domains, web/mail hosting, central email solutions, and automation systems for Bangladesh Telecommunication Company Ltd	

- **Business Continuity & Compliance:** Designed and tested DR/BC plans while implementing security controls, governance processes, and compliance validation across IT infrastructure
- **Telecommunications & VoIP Solutions:** Installed and configured VoIP software (Soft Switch, Billing, Radius), Asterisk/VICIDial call center solutions, and BTRC/ICX forum CDR analyzer systems with external top-up integration
- **Network Services Administration:** Managed NTP, SFTP, HTTPS, Tomcat, Radius, SSL/TLS, VPN, MySQL replication, and SIP applications with automated Python/Bash scripts for routine operations

Notable Projects

- On-Prem Cloud & Container Platform *(Pubali Bank PLC, Jun 2025 – Aug 2025)*
Designed and deployed an on-premises VMware Cloud Foundation (VCF) and Tanzu platform, consolidating VM and Kubernetes workloads. Delivered CI/CD-ready infrastructure with built-in NSX security, achieving cost savings and faster time-to-market for web & API services.
- Near-DC (NDC) High Availability Solution *(Pubali Bank PLC, Apr 2025 – Present)*
Implemented active-active/active-passive replication with VMware SRM and Zerto across DC/NDC, achieving 99.99% uptime and <15 min RTO for Tier-1 apps. Strengthened resilience with immutable backups, ensuring 100% compliance with ISO 27001 and regulatory mandates.
- Enterprise Backup & Recovery *(Pubali Bank PLC, Feb 2025 – Aug 2025)*
Deployed Dell Data Protection Suite across DC/NDC/FDC for Core Banking, ATM, and digital platforms. Achieved 99.9% data availability, 70% faster recovery, and 40% storage cost savings with deduplication and ransomware-proof immutable vaults.
- Far-DC Disaster Recovery Site *(Pubali Bank PLC, Jan 2025 – Jul 2025)*
Established a geographically distant DR site with VMware SRM and Dell CRS, ensuring continuity against regional outages and cyberattacks. Delivered 24/7 availability for CBS, ATM, and mobile banking, fulfilling Bangladesh Bank Tier-3+ BCP compliance.
- Core Banking Software Deployment Automation *(Pubali Bank PLC, May 2024 – Jun 2024)*
Developed a Django-based automation framework for CBS deployments with Celery/Redis orchestration. Reduced deployment time by 90%, eliminated human errors, and introduced audit-ready RBAC with real-time monitoring.
- Data Center Infrastructure Upgrade *(Pubali Bank PLC, Jan 2024 – Mar 2024)*
Upgraded DC with VMware vSphere 8, NSX-T, and vSAN hyperconverged infrastructure, consolidating zones and reducing TCO by 30–40%. Achieved 99.99% SLA, 50% faster provisioning, and hybrid-cloud readiness with Tanzu & HCX integration.

Training, Certification & Badges

- Kubestronaut
- CKS: Certified Kubernetes Security Specialist
- CKAD: Certified Kubernetes Application Developer
- CKA: Certified Kubernetes Administrator
- VMware Certified Professional - DCV
- VMware Certified Professional - TKO
- VMware Certified Professional - VCF Administrator
- Certified Associate Python Programmer
- Advanced Certificate for Management Professionals (ACMP) 4.0
- Redhat Certified Engineer
- Oracle Solaris 11 System Administration
- Oracle Solaris 11 Advanced System Administration
- Oracle WebLogic Server 14c: Administration II
- Oracle WebLogic Server 14c: Troubleshooting
- Google IT Automation with Python
- IBM DevOps and Software Engineering
- Cloud-Native Development with OpenShift and Kubernetes
- Google Data Analytics
- Google Advanced Data Analytics • Google Business Intelligence
- Meta Database Engineer • AWS Cloud Solution Architect
- Oracle APEX Developer Professional ELS • Oracle BI 12c: Create Analyses and Dashboards Ed 2 LVC
